MOULTON SCHOOL AND SCIENCE COLLEGE

Moulton School is a popular, successful and over-subscribed science specialist school situated in the village of Moulton to the north of Northampton. Students attend from Moulton, other villages to the north of Northampton and from the town itself. There are currently approximately 1380 students on roll, including 212 in the Sixth Form.

Levels of achievement in public examinations have been rising steadily over recent years and are consistently above the national average. We are proud of these successes, but are committed to further improvements over the next few years. The school has many other strengths, not least its strong tradition of pastoral care, built around its Year system and complemented by a wide range of support staff.

Staff development is fundamental to our improvement strategies, and whilst all staff expect to work hard for the students in their care, they also expect and receive proper support in becoming more effective practitioners and in career development.

In our recent Ofsted report (July 2013), the school was described as “good and improving”; being judged good overall and in all key areas.

To find out more about us, please visit the school website www.moultonschool.co.uk

This is an exciting time to be involved with Moulton School and I hope that you will be encouraged to apply.
